Web Developer | Software Engineer | Problem Lover

EXPERIENCE

GENERAL ASSEMBLY | Web Development Immersive | NYC 4Q 2013—1Q 2014

- | 12-week intensive program on full-stack web development. Designed and built Ruby on Rails websites with JavaScript, jQuery, CSS, HTML, Backbone, SQL

NUMINIX | Web Development Firm | VANCOUVER, BC / NEW YORK, NY 1Q 2013—3Q 2013

- | Quality Assurance Lead—Improved quality of deliverables by implementing testing policies and procedures which dropped customer complaints by 80%
- | Project Manager—Functioned as liaison to biggest single client (60% of revenue). Created precise job tickets to communicate exact requirements to off-shore development team (Vietnam, Philippines)

GENERAL DYNAMICS | Military Contractor | SCOTTSDALE, AZ 2Q 1997—3Q 2007 and 2Q 2009—2Q 2011

- | Software Product Manager—Software Development Kit API—Led 7-person team. SDK allowed our system to share combat data in mil-standard formats.
- | Software Project Lead—Trade Show Prototype Demo—Led 4-person team—presented in Washington DC to high-profile clients. We demonstrated integration of a new messaging system via a Hollywood-type simulated flight demo. Presented award: "For outstanding planning and execution for Demo".
- | Software Engineer—ASTOR program—British Battlefield Management System. Individual accomplishment of personal high-risk milestones contributed to the ASTOR project being the most profitable project in entire division that year. Our exemplary performance on the ASTOR program led to profitable follow-on work. (Over \$6.1m). Received 3 separate awards for outstanding individual accomplishments.

WORLD TOUR | Solo backpacking trip around the world 3Q 2007—3Q 2008

Spanish language immersion in 12 Spanish-speaking countries, Published Photography and Travel blog, Walked on all seven continents, Furthered cultural awareness, Solved problems with limited resources, Focused on essentials, Enhanced flexible thinking skills

PERSONALITY

I was an improvisational comedian

I bought my first computer with paper route earnings, then taught myself to program at 13

I provided Internet email service for free to my BBS users in 1993, long before most had heard of email

I walked on Antarctica
